

GRIEF

Grief has been described as wandering through a dark night. Sometimes we can manage with the support of our friends, our family, and our faith. Other times we're low in all those areas. At some moments we begin to doubt that morning will ever come.

Reveille Counseling Ministry offers you licensed, compassionate counseling to assist you on this leg of your journey. We will help you to work through your grief, reclaim your joy, and engage in living once more.

This counseling is offered one-to-one and also in the small group setting.
